Live Switcher

Panasonic AG-HMX100

Creative Liquid is proud to offer our clients the brand new Panasonic AG-HMX100 switcher/mixer. This HD/SD capable switcher is a cost effective option for multi-cam live-switched events. The HMX100 is a high-quality switcher/mixer designed to support multiple camera workflows.

This highly versatile unit integrates a HD/SD video switcher, audio mixer, MultiViewer and control panel in a single, compact unit. The HMX100 features a built-in MultiViewer output and combines high-quality video switching with embedded or analog audio mixing functions. It offers a very flexible user interface and supports SD, HD formats, plus switching of 3D sources.

Creative Liquid offers complete turn-key crews or we can provide the switcher and engineer and you provide the rest. The HMX100 equipment package comes standard with a high definition monitor, intercom system and 200' cable kit.
